Dear [Producer],

It's all part of the **Win Wynn** contest that has just kicked off. There's no limit to how many producers can win and your only competition is yourself and your production from last year.*

Using your production from the first five months of 2006 as a starting point, the **Win Wynn** contest challenges you to increase your production during the first five months of 2007. Discounts on the Sales Symposium will be rewarded based on the percentage of your production increases.** When you increase your production by 50 percent or more, you will be headed to the Sales Symposium for free. All contest winners can also look forward to trophies, marketing credits and spa packages.

Please call me for complete rules and to find out how you can **Win Wynn!**
